

WELLNESS SERVICES

Knowledge, Skill, Passion...We set the standard.

Enhancing the quality of life of residents is the primary focus of MPI'S Wellness Services. We help promote the health, well being, and safety of residents. We provide needed assistance with activities of daily living and enable residents to enjoy life to the fullest in the comfort of their homes.

Our Wellness Services are managed by a Wellness Manager, a Registered Nurse with years of clinical and management experience. The Wellness Manager oversees the services provided by our Resident Assistants who have been carefully selected and specially trained for their responsibilities.

Wellness Services may range from Ala Carte to Wellness Packages and customized services. Wellness Packages and customized service plans are a cluster of services that the resident may need to continue to live independently in the community.

Our Wellness Manager will assess and discuss your needs with you and/or your family, and develop a Wellness plan with your collaboration and approval.

Caring for residents of select independent living communities is our business. We have built our reputation upon quality wellness, personal, and home health services.

When the resident's needs go beyond A la Carte and service packages, MPI has the experience, knowledge, and skill to provide One-on-One continuing care.

Our Company

MPI home care has been in the healthcare business for over 29 years. Owned and managed by Registered Nurses, MPI offers a full range of home health, personal/companion care and wellness services throughout Mid and Southeast Michigan. Our services are paid for either privately, by auto and commercial insurance providers. It is our goal to provide the best quality care to our clients at the lowest cost possible.

Our Promise of Quality

Staff you can trust

We are selective because we care about your safety and well-being. Our staff undergoes rigorous screening before hiring. They are highly qualified and their backgrounds are thoroughly checked.

Individualized Orientation

We believe that each resident is unique and each individual has special needs. This is the reason the Registered Nurse Supervisor conducts thorough orientation of assigned staff to every client's plan of care.

Quality: Day or Night

MPI's On-call Registered Nurse is available 24 hours a day, 7 days a week providing direction and guidance to direct care staff whenever necessary. You can sleep soundly at night knowing that a nurse is only a phone call away.
