

Solutions for Case Managers

Knowledge, Skill, Passion....We set the standard.

We understand the value of finding trustworthy caregivers in your profession. A serious vehicle or work-related accident can impact every aspect of an individual's life. You can be assured that our experienced and trained staff can meet the home care needs of your clients with catastrophic injuries and complicated conditions. Close coordination between case managers and MPI staff will ensure the best outcomes for your clients. You can also expect appropriate reporting on status so you can always be aware of your client's progress.

A partnership with MPI utilizes an interdisciplinary approach among:

- Skilled Nursing
- Physical Therapy
- Occupational Therapy
- Speech-Language Pathology
- Nurse Aide

Specializing In:

- Multiple trauma
- Spinal Cord Injury
- Brain injury
- Wound Care

We have specially prepared clinicians skilled in the care of patients with spinal cord injury, traumatic brain injury, complex wounds, and behavioral issues. Our nurses and rehabilitation professionals work as a team with a goal of increasing client independence as quickly as possible.

As clinicians, we aim to communicate effectively with the case managers, as well as other health care professionals involved in the client's care. We understand and value excellence in communication. It is our standard of practice. Therefore, you can expect specific, relevant and appropriate reporting on your client's status. Moreover, we personalize our reporting according to your criteria and expectations. We know that accurate communication is important and that it supports client recovery and more successful outcomes.

Serving Mid and Southeast Michigan
